

FLYING LEAD STANDS

ABCO Subsea is bringing to market Flying Lead Stands to suspend hydraulic or electric flying leads above the seafloor. The Flying Lead Stands are installed using an ROV.

Advantages:

- Different lengths available for different soil properties
- ROV handle within Flying Lead saddle
- Proprietary auger system and cutting structure enables soil penetration with less friction

Material Specs:

Length	25" (63.5 mm)
Width	20" (51 mm)
Height*	112" (2845 mm)
Weight in Air	76 lbs (34.5 kg)
Weight in Water	58 lbs (26.3 kg)
Material Specification	5052 Aluminum

*Custom sizes are available, depending on the needs of a customer.
