

DROOP LINE BUMPERS

Droop Line Bumpers form a protective frame around umbilicals or flexible pipe, providing a cost-effective and simple way to prevent damage to lines during storm conditions. ABCO Subsea's Droop Line Bumpers are made from polyurethane and are held together with a series of fasteners.

Advantages:

- Custom designed to any diameter
- Nitrile inserts ensure positive retention to an umbilical or flexible pipe
- Simple design and quick make-up

DROOP LINE BUMPERS

Technical Data

Material Specs:

DROOP LINE BUMPERS	
Material Designation	70-D Ether-based Polyurethane
Manufacturing Process	Atmospheric Cast
Inserts	Nitrile Rubber

FASTENERS	
Material Designation	316 – L Stainless Steel
Manufacturing Process	Cold Formed
Tensile	85,000 psi
Yield	45,000 psi
Elongation	50%
